- ☐ Healthy eating initiatives
- ☐ Reliability and Seamless
- ☐ Professional friendly hospitality
- ☐ Sustainable packaging

Reducing Food Waste for Sustainability

Small changes can lead to significant impact! Let's explore Catalyst's food waste reduction initiatives that benefit both businesses and the environment.

Implementing a Zero-Waste Approach

- Focusing on reducing, reusing, and recycling.
- Planning meals and inventory efficiently to avoid overproduction.
- Educating staff on best practices to minimize waste.

Smart Inventory Management

- Using FIFO (First In, First Out) to rotate stock and prevent spoilage.
- Tracking expiration dates and using technology to optimize ordering.
- Donating surplus items before they go to waste.

Composting & Recycling

- Composting food scraps to enrich soil and reduce landfill waste.
- Recycling packaging materials and avoiding single-use plastics.
- Partnering with local organizations to improve waste diversion.

Tracking Progress

- Using data to monitor food waste and identify improvement areas.
- Setting goals to reduce waste year over year.
- Celebrating milestones and sharing success stories with our team.

Powering the Digital Future

PURPOSE

- System Driven
- Auto Scheduler
- Data Security
- Unlimited Benchmarking
- Easy to Use

ADVANTAGES

- Never Miss any Checklist
- Paperless Environment
- Strong Analysis
- Auto Report to “n”
- Number of email ids

Data collection, Data Configuration, Update user Detail
Configure task Schedules.

E-Checklist get triggered automatically in
scheduled frequencies.

User scan the QR code which are located at
the planned area/Equipment.

User check & Update the checklist
accordingly and submit.

Reports will be shared as per the schedule and
requirement through email.

Your Experience, Our Accountability

- **Resource Foundation:** Go-live with a 100% workforce, essential tools, chemicals, and minimal equipment.
- **Precision Planning:** Designing resource allocations and detailing service benchmarks.
- **Quality Assurance:** Delivering optimal quality to ensure a seamless user experience without service failures.

Establishment
0-30 day

Operational Advancement
30-60 days

- **Machinery Integration:** gradually All major machines are being installed, marking a significant step toward full-scale operations.
- **Efficiency Optimization:** Allocation and actual mechanized operations will align with our predefined scopes, enhancing operational efficiency.
- **Benchmark Standardization:** We're working diligently to standardize benchmarks across the entire plant.
- **Structured Workflow:** Implementation of checklists and job cards will streamline our processes and boost productivity.

- At Catalyst, we partner with healthcare providers to enhance patient care through strategic, in- house nutrition services. Because healing doesn't start with treatment alone, it begins with how patients are nourished.

Why Patient Nutrition is a Critical Part of Clinical Care

Targeted nutrition plays a vital role in improving recovery outcomes and patient satisfaction.

Nutrition Led Healing - Healthcare Food Service

Our services help healthcare facilities:

- Accelerate recovery through clinical- grade nutrition
- Strengthen immunity and resilience in vulnerable patients
- Support chronic condition management with diet-specific meals
- Enhance patient comfort and care experience

Our In-House Patient Dining Program

We deliver high-quality, dietician-led dining services that integrate seamlessly with clinical operations.

In Our Approach :

- ✓ We ensure high hygiene and food quality standards that support patient recovery and hospital reputation.
- ✓ Fresh, temperature-controlled meals delivered on time and customized to dietary needs.
- ✓ Our services comply with NABH and JCI guidelines for clinical and operational excellence.
- ✓ Expert teams deliver balanced, patient-focused meals with care and precision.

Nutrition Led Healing - Healthcare Food Service

Scope of Services we deliver:

- Patient food service:
 1. Patient food order confirmation
 2. Food preparation and tasting by dietician
 3. Meal tray preparation and tagging
 4. Food Service at rooms and Soiled plate collection
- ICU and Special services
- Room service, Doctors café, Nurses café
- Visitor café

Fueling Futures Through Nutrition - School Food Service

At Catalyst, we understand that nutrition is the cornerstone of academic success and holistic development.

Access to well-balanced meals directly correlates with:

- Enhanced Cognitive Function
- Sustained Energy & Engagement
- Improved Emotional Well-being
- Strengthened Physical Health

We believe that investing in student nutrition helps empower them to reach their full potential, both inside and outside the classroom.

At Catalyst, we transform school cafeterias into vibrant spaces that prioritize student well-being. We offer comprehensive food services, including expert menu planning, wholesome food preparation, and empathetic service.

Our focus is on safety, balanced nutrition, and creating a positive dining environment where students can thrive, learn, and grow.

Beyond The Stay - Guest House Management

Beyond the Stay: Our Commitment To Guest House Excellence

At Catalyst, we help enhance the presentation of your guesthouse for creating a lasting impression on your guests and contribute to their overall satisfaction during their stay.

Our End-to-End Guest House Management Services

-  Quality Food Services
-  Efficient Laundry Management
-  Housekeeping Excellence
-  Flawless Room Making
-  Premium Room Amenities
-  Proactive Repair & Maintenance

The Catalyst Promise: Effortless Comfort, Lasting Impressions

-  Relaxing Stays
-  Convenient Dining
-  Spotless Spaces
-  Reliable Operations
-  Complete Satisfaction

We ensure to elevate every guest experience.

Empowering Progress – A strategic Partnership Success Story

Five years ago, during the peak of COVID-19, **JSW** entrusted Catalyst to execute a critical transition as part of their management changeover planning at the Dolvi plant, beginning with an **INR 12.72 crore** annual contract. Recognizing our team's expertise, JSW expanded our partnership. Today, we manage operations at four major locations, with an annual turnover of **INR 32.20 crore**. With our sights set on a **INR 100 crore** business partnership by 2025-2026, we take pride in driving JSW's vision and contributing to their continued success.

Execution Strategy :-

- ✓ Sourcing Workforce : 60% migrant staff sourced and deployed efficiently.
- ✓ Heavy Vehicles C Equipment : Hiring and deployment of heavy vehicles and cleaning machines.
- ✓ Alignment C Process Setup** : Streamlined alignment of machines and processes for efficient operations.

Commitment to Safety :-

- ✓ COVID Protocols: Emphasize the implementation of 100% COVID-19 safety protocols.
- ✓ Quality Initiatives: Continuous monitoring and quality control to ensure compliance with safety standards.

Results & Growth :-

- ✓ Expansion : Growth from a single location to four major JSW Steel plants.
- ✓ Current Contract Value : Increase to an annual turnover of INR 32.20 crore.
- ✓ Operational Excellence : Showcase achievements like seamless transition and ongoing operations.

Vision Forward :-

- ✓ 2025-2026 Target : Ambition to grow the partnership to a INR 100 crore business.
- ✓ Our future is rooted in **strategic partnerships, tech-enabled service delivery, and customer-first execution**. We aim not just to grow in numbers, but to lead in **setting new benchmarks in facility management** across India.

Embarked on its journey in 2020, beginning as a modest operation with an annual revenue of INR 68 lakh. In just a span of four years, we have demonstrated consistent growth and resilience, reaching a turnover of INR 3 crore by 2024. This growth is not just a measure of numbers but a reflection of the trust, performance, and strategic direction we've built over time.

Key Growth Milestones:

- 2020: Launched with revenue of INR 68 lakh; onboarded KD Hospital during COVID-19.
- 2021–2023: Expanded operations across healthcare, corporate, and industrial sectors.
- 2024: Crossed INR 3 crore in turnover; renewed KD Hospital contract with tech upgrades.
- 2025–2026: Targeting INR 10 crore in revenue through IFM-driven expansion.

As we look ahead, our vision is clear: to scale our revenue to INR 10 crore by 2026. This ambitious goal is being driven by our Integrated Facility Management (IFM) strategy — a holistic approach that combines manpower, automation, sustainability, and intelligent analytics to deliver world-class facility solutions across sectors.
